## HAPPY ECO-FRIENDLY DIWALI !

Sparkling stars in the dark sky  
And the glittering oil lamps on earth.  
Without disturbing the ecology they  
Spread beautiful light without dearth.  
Natural colourful rangolis and scented flowers,  
Add natural beauty to the ambience  
And cheerfulness with mirth.

Eco-friendly Diwali urges us not to waste electricity.  
Avoid bursting crackers as it adds pollution to vicinity.  
Unnecessary wastage of papers found in plenty.  
Save nature, energy, mother earth and the spiritual divinity.

Donate sweets, clothes, hand-made greetings  
and gifts with generosity.  
Go green and use recyclable products and

Save environment cost with nobility.

Forget and forgive easily if any animosity.

This will pave way to save natural world and the humanity.

Spread happiness with kind words in your locality.

Eco-friendly Diwali teaches us to be kind,  
caring and to be concerned.

Drive away the negativities and spread optimism in certain.

Help the poor and needy without expecting anything in return.

May the relationships with dignity be nurtured and sweeten.

This Diwali let us all foster Eco-awareness and enjoy celebrations.

Let our souls get cleansed and divinely enlightened.

Let us celebrate Happy Eco friendly Diwali and

Make this Earth free from all sorts of pollution.

Let green and fresh universe be our all time destination.
